

## **INTERNSHIP CONSULTING**

### **What we offer**

- You will be part of a small team, learning hands-on all fields of a consulting business. You will be involved in the setup and execution of consulting projects with clients. This will include the research phase, innovation phase as well as the prototyping phase.
- You will work together with a mix of seasoned consultants, experienced entrepreneurs and startup employees.
- There will be the possibility for you to bring in your ideas and work on them during your internship.
- Enjoy working in a centrally located office in the beautiful city of Vienna, chocolate cookies included.
- We offer a competitive salary starting at EUR 1.500 (gross) per month depending on your qualifications.

### **Your Ambitions**

- You want to deliver high quality results and have an eye for details
- You want to see ideas coming to life and want to contribute in any way possible
- Culture and team spirit are important to you and you'd like to help shape them in a young company

### **Your Background and Skills**

- Current studies or a finished Bachelor Degree in Business Administration, Economics or Management
- Strong organization skills, attention to detail and proactive attitude
- Proficiency with MS Office (PowerPoint, Excel, Word, Outlook) is required
- You are keeping up with what's happening in the tech world
- Excellent written and oral communication skills
- German language proficiency of A2/B1 or higher

### **Bonus points, if...**

- You have worked in the field of technology, a creative agency or consulting company
- You have experience in using new media technology and working with team collaboration and prototyping software

### **What we need from you**

Please submit your CV and a short Cover Letter emphasizing why you'd like to work for viable ([hello@viable.at](mailto:hello@viable.at)). You can include references, links to side projects and anything you deem important to your application.

**One more thing**

How would you define “Innovation” in your own words? What is an innovative product or service you have come across recently and why do you like it?
